LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quart pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands, it should help to bleach, clear, smoothen and beautify the skin. Any druggist will supply three ounces of orchard white at very little cost, and the grocer has the lemons.—Adv.

PLAINFIELD

To-morrow night the Nellie Gill Players will present the beautiful drama, "When We Were Twenty-One." No one under 16 will be admitted. Dancing will follow the play.—Adv.

The many friends of Mrs. Gertrude Bartlett were saddened to hear of her death Monday, July 23. Her life, which had had more dark than sunny days, and clouded with many sorrows, was filled with unselfish, sacrificing devotion to her loved ones and friends. Her sterling character made for many sincere friends, who will mourn her, who was patient, cheerful and thoughtful of others to the last. Although disappointed that her funeral was held at her late home, where in the short time she had been among them her neighbors, young and old, had learned to love her, many gathered at the cemetery to pay their respects to one they loved. They extend their sympathy to Clarence, who, having had the wise counsel and encouragement of such a mother, is well started on the road to a life of success and usefulness.

A TIME FOR STRONG NERVES

Many people are worrying themselves sick over the high cost of living. War time with its excitement and hysteria is a trial to the strongest nerves. To those whose nervous systems are run down by overwork or worry, to those who are on the verge of neurasthenia, it is a time of danger. There is no tonic for the nerves that is not a tonic for every other part of the body. There is no form of debility that does not rob the nerves of nourishment. The remedy therefore for nervous breakdown is a tonic that will build up the general health, revitalize the blood and enable it to carry to the nerves the elements that they need.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants.

The Dr. Williams' Medicine Co., Schenectady, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 60 cents per box, six boxes for \$2.50.

IRISH CONVENTION

LAYING OUT WORK

Adjourned Yesterday to Aug. 8 to Formulate Program on Home Rule Question.

London, July 27.—The convention which England hopes will settle the Irish home rule question met in Dublin yesterday, appointed a committee on procedure to report Aug. 8, and then adjourned until that date.

Dublin, July 27.—Sir Horace Plunkett, who has suggested that the Irish constitutional convention proceed as for all Ireland in drafting the organic law, so that Ulster might not protest unadvisedly, was inducted into the chairmanship of the convention at its first session in permanent organization yesterday.

In the Irish cities all parties are deeply stirred but there has been no outbreak against the government. The unanimous election of Sir Horace Plunkett as chairman is considered an augury for fair progress, although it is unsafe to predict anything of this assembly of representative Irishmen. With Plunkett as chairman and Sir Francis Hopwood as secretary, it would appear that the convention would be capable of just and conciliatory direction.

The Cost of Maintaining the Service

Few realize the extent to which the present "high cost of living" affects the public service—people generally do not seem to realize that the business of serving the public has its "living" expenses like every individual.

This company may be likened to the salaried man whose expenses are ever increasing without a corresponding increase in income.

To illustrate the increased cost of maintaining the public service, we have tabulated the following figures, showing what standard supplies cost us to-day as compared with two years ago.

Material.	Price to-day.	Price two years ago.	Increase.	Percent. increase.
Copper wire	\$35.35 cwt.	\$19.85 cwt.	\$15.50	78

These figures show an average increase in cost of over 63 per cent., whereas the price received by this company for its service has not been raised.

By practicing every economy consistent with proper management, we shall endeavor to maintain the service at its present high standard during the trying period through which we must pass before normal conditions again obtain.
